Discover

new trends in education including the announcement of the Electronic Classroom

Experience

the latest STEM technology

Collaborate

with Acellus education developers and leading educators from across the nation

ASAC

Acellus School Administrator Conference

The Acellus School Administrator Conference (ASAC) is a two-day symposium attended exclusively by district and school administrators. The environment of this conference is designed to allow thought leaders in education to collaborate with their peers and the experts at Acellus on best practices and strategies for deployment of blended learning. It also provides an opportunity for administrators to provide insight and feedback to the team at Acellus as we work to advance the cutting edge of adaptive learning in education. Those attending the conference will gain insight on successfully implementing Acellus in various deployment areas, including STEM, Special Education, Social and Emotional Learning, Virtual Education, Credit Recovery, Intervention and more.

WHO SHOULD ATTEND?

ASAC is geared towards district and school-level executives. This includes School Board Members, Superintendents, Asst. Superintendents, Directors of Curriculum, Directors of Special Education and Principals.

CONTINUING EDUCATION CREDITS

Participants will receive 20 professional development hours under the IAS Professional Development program for school board members and administrators.

ACELLUS STEM-10 LABS

ASAC attendees will get hands-on experience with the Acellus STEM-10 Robotics Labs.

The STEM-10 program is built on the realization that coding is a fundamental ability needed by all students. The 10-year program begins at the elementary level, usually in the 3rd grade, expanding each year in sophistication and complexity. In the last years, the program spreads out to three paths, each preparing students for a cutting edge career of their choice or for advanced learning by attending college.

“

"Well organized, useful, sequential and truly covered all parts of Acellus - a must for any district implementing Acellus."

– Sandra Wilson, Asst. Superintendent
Peoria Public Schools

"The training was great. The entire time we were thinking of all the ways this would help us meet student needs - way beyond what we thought when we first came."

– Brenten Byrd
Asst. Superintendent of Curriculum & Instruction
Webb City R-7 School District

”
